Summary

Full Stack Engineer with 3+ years of experience building scalable web applications and enterprise ERP systems serving 800+ businesses. Proficient in **React.js**, **Node.js**, and **.NET**, with proven expertise in responsive UIs, SQL optimization, and third-party API integrations. Delivered **AWS S3** migrations and engineered ERP features that reduced manual processing by 20%.

Skills

Language : JavaScript, TypeScript, VB.Net, SQL

Frontend : React.js, Next.js, TailwindCSS, Bootstrap, HTML, CSS

Backend : Window Server, Node.js, Express.js

Database : SQL Server, PostgreSQL, MongoDB

Other : Redux, Zod, Git, REST APIs, Docker, CI/CD, Postman

Experience

Turbomodus Pvt Ltd, *Hyderabad, India*

Associate Engineer — Nov 2022 - Apr 2026

- Diagnosed and resolved **50+ production issues** across inventory, reporting, and permissions modules, resolving UI bugs, data inconsistencies, and access control flaws.
- Tuned **SQL stored procedures and views** to eliminate query timeouts and accelerate response times for reporting modules.
- Integrated ERP data with a third-party **SQL Server** via OLEDB, replacing multi-field manual entry with a single ID lookup that **cut input time by 95%** and eliminated data errors.
- Migrated file storage from on-premise Windows servers to **AWS S3**, configuring buckets and IAM policies in collaboration with senior infrastructure leads.
- Led onboarding for **12+ enterprise clients** (8 as sole technical owner), managing data migration, module customization, and end-to-end workflow validation.
- Reverse-engineered QR code identifiers from legacy system data into structured **JSON records**, seamlessly migrating historical inventory data and preventing clients from **reprinting 1000+ physical labels**.

Project

PeopleHub: Internal HR Platform

- Built an HR platform (**React, Express, PostgreSQL**) covering leave approvals, attendance and audit logs.
- Implemented JWT auth with rotating refresh tokens and reuse detection; managers see only their reporting tree via recursive SQL queries.
- Built a team leave timeline in React 19 + Tailwind CSS; 60+ integration tests run in CI covering auth, permissions, and concurrency.

Education

B.Tech in Electrical and Electronics Engineering, BPUT University, Odisha — 2019 - 2022
